

Please think about what these banks are trying to do. The residents of the state of Indiana have signed up for the telephone privacy for a reason. I did it because I did not like getting calls early in the morning, and late in the evening when I was trying to spend time with my family. If you let these businesses be exempt, my phone will once again be ringing off of the hook. I don't think that its fair. Its my telephone, I pay the bill, so I should not have to get calls that I do not want. If you let this pass, I will keep fighting it and I know that there are millions of other Indiana Residents that will side with me on this. Thank you for your time.

Sincerely,

Stephanie Smith  
Mooreville, IN
